MESSAGE FROM HKIS PRESIDENT 香港測量師學會會長的話

Message from the President of The Hong Kong Institute of Surveyors

With the increasing demand for land and housing in Hong Kong, large-scale infrastructure projects are on the rise, offering plenty of opportunities for the talents in the construction and surveying industry. The Hong Kong Institute of Surveyors (HKIS) have joined hands with secondary schools in Hong Kong to organise various events for the younger generation for years. Riding on the success of the “Create Your District” Competition in the past few years, the HKIS have organised the “Beyond Your Campus” Competition 2021-2022.

To encourage students to be more devoted to the competition, the competition theme was their own campus which they are most familiar with. Participants transformed into ‘surveyors’ and design an ideal environment for their campus and its surrounding community. Various workshops were organised for the students to attend to familiarise themselves with the work scope of surveyors. Various surveyors served as mentors to provide guidance for each team of contestants when preparing for their competition entries.

Through the course of the competition, the HKIS believes that not only could the students further explore their campus and its surrounding community, they could also enhance their understanding of the role of surveyors in city development. We are delighted to see the creativity of students as shown in the many innovative and outstanding student works. I hereby sincerely congratulate all winning teams. At the same time, we are honoured to provide opportunities for students to create an ideal environment for their campus and its surrounding community, allowing us to witness the infinite possibilities of the younger generation.

With the experiences and insights gained in this competition, the HKIS believes that students could explore more ways to achieve sustainable development in Hong Kong and contribute to Hong Kong in future.

On behalf of the HKIS, I would like to express our deepest gratitude to all the partners, sponsors and supporting organisations, as well as participating schools, teachers and students. I would like to offer special thanks to the members of the organising committees, judging panel and mentors of the competition. Only with your support, the competition could be held successfully. Thank you!

Sr CHIU Kam-kuen

President

The Hong Kong Institute of Surveyors

香港測量師學會 會長的話

隨著香港人對土地及住屋需求持續上升，各項大型基建項目愈來愈多，為建造及測量業界人才帶來大量機遇。多年來，香港測量師學會（學會）一直與全港中學合作，籌辦不同活動讓年輕人參與。學會繼過往數年成功舉辦社區發展創作比賽後，首次舉辦「構建『你』想校園社區」創作比賽 2021-2022。

為了令學生投入參賽，是次比賽由學生最熟悉的校園着手，讓他們化身小小測量師，構建心中理想的校園及周邊社區。學會亦安排了不同工作坊，加強參賽同學對測量師工作的認識；更安排多位專業測量師出任導師，為每隊參賽者提供指導意見，務求令參賽作品更臻完美。

通過今次比賽，學生進一步探索自己的校園以至周邊社區，與此同時加深了解測量師在城市發展中的角色。我們樂見許多創新及傑出的學生作品，得獎作品都展現了無限創意，在此我衷心恭喜所有得獎隊伍。同時，我們亦很榮幸能夠提供機會，讓學生創出他們的理想校園和社區，讓我們看見年輕一代的無限可能。

學會相信參賽學生將來藉著參加本次比賽的經驗和得著，發掘更多香港可持續發展的方向，為香港的未來作出貢獻。

我謹代表學會感謝各位合作夥伴、贊助商及支持機構、參與學校和師生對活動和學會的支持，亦特別鳴謝比賽籌委會成員、評審及比賽導師，全賴各位鼎力支持，比賽才能順利進行。感謝大家！

香港測量師學會會長

趙錦權測量師

MESSAGE FROM COMPETITION ORGANISING COMMITTEE CHAIRMAN

比賽籌委會主席的話

Message from Competition Organising Committee Chairman

The HKIS organised the “Beyond Your Campus” Competition 2021-2022, with the aim of unleashing the creativity of the younger generation and arouse their interest in the surveying profession. The competition successfully attracted about 160 participants from 28 secondary schools and formed 51 participating teams.

Looking back at the entire competition, despite the severe epidemic, our determination to organise the competition was not hindered. We also formulated a series of epidemic prevention measures to ensure safety, such as changing some workshops to online. The HKIS successfully held seven workshops for the contestants from March to May in 2022 to familiarise themselves with the work scope of surveyors, such as taking students on field trips to visit revitalisation and green projects, teaching them to build their own air conditioner, etc. Many participating students and teachers showed their appreciation towards the workshop arrangement and expressed that they had benefited from them a lot.

The theme of this competition is no longer limited to Tsim Sha Tsui, Wan Chai, or other districts in Hong Kong, but instead focuses on campuses and surrounding communities that students are most familiar with. We also added a mentor system to enhance interaction between surveyors and students, and provide guidance for students to complete their work, so that they can truly understand the work scope of surveyors.

We are impressed by the performance of the contestants and their works were ingenious. For example, there were 3D models and multimedia work, and even presentation design and web pages. The unlimited creativity of secondary school students is truly amazing and admirable. We sincerely hope that this was only the beginning and they would turn their works and ideas into reality in the future and help build an ideal Hong Kong in their eyes.

The competition was held successfully with the support of sponsoring and supporting organisations, members of the organising committees, all the judges, mentors, participating schools, teachers and students. On behalf of the HKIS, I would like to once again express our sincerest gratitude to you all.

Sr LAM Ka Fai, Francis

Organising Committee Chairman

Beyond Your Campus Competition 2021-2022

Vice-President

The Hong Kong Institute of Surveyors

比賽籌委會 主席的話

香港測量師學會舉辦「構建『你』想校園社區」創作比賽 2021-2022，希望釋放年輕一代的創造力，以及啟發他們對測量專業的興趣。活動成功吸引來自 28 間中學共約 160 位參賽者參加，並組成 51 隊參賽隊伍。

回顧整個比賽，雖然遇上嚴峻疫情，卻無阻我們籌辦比賽的決心，我們也制定了一系列防疫措施，以策安全，例如將部分工作坊改為於網上進行。學會於 2022 年 3 至 5 月期間為參賽者成功舉辦了 7 個工作坊，以加深他們對測量師工作的認識，例如帶同學實地考察活化和綠化項目、指導他們製作冷氣機等，很多參與的同學和老師都讚賞工作坊的安排，表示獲益良多。

是次比賽主題不再局限於尖沙咀、灣仔、或是某一地區，反而聚焦同學們最熟悉的校園及其周邊社區。我們更增設導師制度來增加測量師與同學之間的互動，並且輔導他們完成作品，務求令他們真正了解測量師的工作。

參賽者皆表現出色、作品別出心裁，如有 3D 模型和多媒體作品，甚至設計簡報和網頁，實在令人眼前一亮，可見中學生創意無窮，但願他們不要在此止步，日後將作品和構思化為實體，構建他們心中的理想香港。

是次創作比賽得以順利舉行，全賴各贊助機構、支持機構、活動籌委會會員、一眾評審、導師，以及參與學校與師生的支持，我在此代表學會再一次感謝大家。

構建「你」想校園社區創作比賽 2021-2022 籌委會主席

The team proposes ten levels theming with different flowers and incorporated green concepts to make Ngau Chi Wan a sustainable and vibrant community.

整個設計分為十個層級，分別以不同花卉作主題，融入綠色概念，令牛池灣成為一個可持續的活力社區。

CHAMPION

Project Description

作品描述

項目命名為「拾級」，取拾級而上之意，象徵了對社區環境改善、生活質素一步步提升的祝願，亦希望同學們可以不斷學習，在學業上攀登高峰。整個設計分為十個層級。拾級而上，沿著蜿蜒小徑由彩虹地鐵站開始，穿過屋村、經過校園，最後到達飛鵝山道。木板小徑上的支架讓攀藤植物生長成蔭；同時善用兩旁的廢棄空間利用組裝合成建築予居民、學生和遊客互動交流。十層以蓮花、水仙、蘭花、百合、牡丹、梅花、桃花、菊花、芙蓉及杜鵑命名，各個區域分別種植了相關植物，或以虛擬實境方式加上氣味和音樂刺激遊人的五感。區域的室內外空間有社區溫室、工作坊與交流空間、休憩花園、展覽廳、歷史與文化館、自然與環境保育中心及科技與生活館、咖啡店、手作店等。小徑裝設了不少綠色設備，包括光控智能路燈、空氣淨化太陽能玻璃等節能裝置，減少項目的耗能，減少支出，增強可持續性。小徑連接到山上的校舍有座新建築，新建築以垂直及天台綠化、調整窗戶與遮光板方向、中空設計以及導光管等方式將綠色概念融入，並預留表演與會議場地供公眾於課外時段租用，亦設有工作坊空間以舉辦長者學苑等活動以加強社區聯繫。

LEUNG Tsz-ching 梁芷晴

AMY: 對呀，我的課室就在這邊，上課的時候經常都好暗，而且夏天的時候會好熱，因為風都被擋住了

The team proposes that their school can add solar panels to convert heat and light energy into electricity. 隊伍建議學校可增設太陽能板，把熱能及光能轉化為電能。

Project Description 作品描述

理想校園應有清幽的學習環境，還有多元化校內設施。周邊社區應有豐富和可持續的社區設施，讓附近居民的日常生活更便利。我們的設計呈現了心中的理想校園及社區。學校座落於樂意山頂，景致清幽。在多元化校內設施方面，學校建立了一棟新校舍，校舍內設地理室、音樂室以及健身室，課室以外的空地擺設了幾部鋼琴及數張空椅，同學可以到此放鬆心情。在環保方面，學校可以增設太陽能板，把熱能及光能轉化為電能供學校使用，減低能源支出；同學飯後製造的塑膠垃圾可經加工後變廢為寶，減輕堆填區的負擔。

在社區方面，多數生活設施位於山下，居民需要乘坐小巴下山，但由於交通不便及通往山下的樓梯較崎嶇，特別對長者造成諸多不便，所以我們希望可以增加小巴班次以節省等車時間或加建電梯方便居民和師生通行上落。除此以外，我們還想興建社區設施大樓，裏面包括日常設施，如社區缺少的食肆及商場等，而且可於天台範圍增加花園，增加社區綠化面積，還可用作社區農圃，增加居民間的聯繫。

The team proposes expanding Tin Yiu Plaza to Tin Yiu LTR Station.

隊伍參考裕民坊，希望擴建天耀商場至天耀輕鐵站。

Project Description 作品描述

我們的作品名叫「1+1>2」，希望通過在校園和社區中改善現有的設施和增加設施，使設施間可以相輔相成，達到 1+1>2 的效果。我們為以上兩個部份都繪製了地圖。

其中一部分是社區方面的四個項目重點。第一是參考裕民坊，改建天耀商場至天耀輕鐵站，這由規劃及發展測量師和產業測量師負責，進行城市規劃和與發展商洽談。我們希望在候車區的座椅下方收納可折疊的動能發電單車。在商場內鼓勵無包裝商店；在商場外，外牆採用落地玻璃；商場頂層設草地迷宮供小朋友遊玩，加強社區凝聚力。第二是導航系統，從產業測量方面來說，這個項目的市場及銷售策略將是提高行動不便人士及旅客對這個社區的可訪問性，增加客流量。第三是住宅大樓。我們希望讓它們由低至高排列、坐西北向東南。並以反射光板實現露台種植。在大樓樓頂放置太陽能板儲存後備電源。這個項目是規劃及發展測量師和物業設施管理測量師及房屋署負責，進行土地用途重新規劃及管理供電系統，建築測量師則對樓宇設計進行改建。第四是多用途球場，我們希望能把多個多用途運動場集中在一起，善用土地空間和集中土地用途。

EVENT HIGHLIGHTS 活動回顧

Quantity Surveying Division 工料測量組

Workshop: Trunk Road T2 and Chan Kwo Ling Tunnel T2 主要幹線及茶果嶺隧道工作坊

26/3/2022

Student Feedback 學生心聲

“ At this workshop by Quantity Surveying Division, I learned more about the T2 Trunk Road works. It was a unique workshop for me because it allowed me to gain experience and learn professional surveying techniques for free and see if I am suitable for the surveying industry. In addition, the surveyor tutors taught us patiently. They were so nice. Even though the workshop lasted for only a few hours, I still gained a lot of knowledge.

工料測量組的工作坊讓我了解到更多關於 T2 主幹路工程的資料。對我來說，這個特別的工作坊讓我免費體驗和學習到專業測量知識，了解到自己是否適合投身測量的行業。此外，導師們亦很有耐心教導我這種沒有任何經驗的學生，他們真的是太好了。雖然工作坊只有短短數小時，但已令我獲益良多了。

Workshop: Land Use Planning
土地使用及規劃工作坊

23/4/2022

Student Feedback 學生心聲

“ I participated in a workshop on land use planning. During the workshop, I did not only listen to the tutor's sharing of his experiences, I also interacted with other contestants. It was fun for me to join a group that planned how to utilise land and I learned more about the factors to take into account when conducting this exercise. Also, the tutors were excellent because they guided us step-by-step on how to improve our maps. After taking part in the workshop, I applied my newfound knowledge to my work. I really learned a lot from this workshop.

我參加了土地使用及規劃工作坊，除了聆聽導師的分享，還可以與其他同學互動。我很享受一組人規劃土地用途的環節，這讓我了解更多在規劃土地用途時需考慮的事項。另外，導師真的很有耐心，指引着我們一步一步去完善我們的地圖。參加工作坊後，我的作品中亦有應用到相關知識，我在這個工作坊中真的收穫頗豐啊！”

Workshop: Imagination Creates Reality –
Use of Geospatial Data

想像構建現實 – 地理空間數據的運用工作坊

30/4/2022

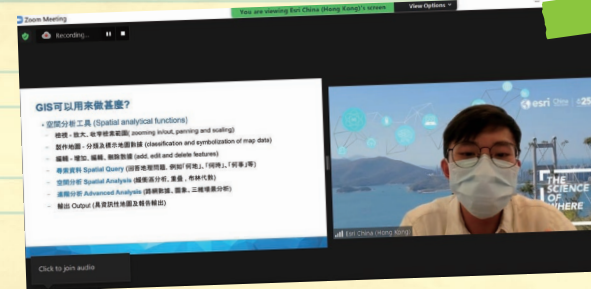

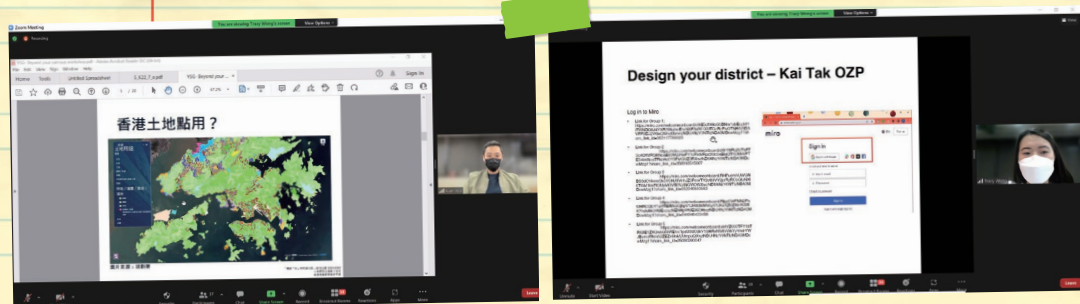

Student Feedback 學生心聲

“ I took part in the Land Surveying Division's workshop. I was impressed by the applications and technologies the surveyors used, even though I joined via Zoom. After the workshop, I discovered that geospatial data can be used in many ways. By clicking a few buttons, we could know the age distribution of the residents of a certain area so that they could build amenities that are suitable for the local residents. While watching the tutors demonstrate the software, I found out how profound land surveying was and still have a lot to learn.

我參加了土地測量組的工作坊，雖然只在 ZOOM 上參與，但是導師使用的程式以及工具都令我印象深刻。參加工作坊後，我才了解到原來地理空間數據可以這樣運用，只要按幾個鍵便可以得知該地區居民的年齡分布等等，從而可以建造一些合適的設施予該區居民。不過觀察導師操作這個程式的同時，我覺得土地測量真的很深奧，我還有很多東西需要學習。”

”

Workshop: Air Conditioner DIY and Sharing Session on Property and Facility Management

空調 DIY 及認識物業設施管理工作坊

30/4/2022

Student Feedback 學生心聲

“ I participated in the air conditioner DIY workshop conducted by the Property and Facility Management Division (PFMD). I learnt how to improve an air conditioner's performance after the tutors explained its principle and structure. The solutions included increasing the number of fans and lowering the water temperature by adding ice cubes. After attending the workshop, I asked the PFMD surveyors a lot of questions about their work. Thank you so much for your patience!

我參加了物業設施管理組舉辦的空調 DIY 工作坊。當導師講解冷氣機的原理和結構後，我明白到如何根據冷氣機原理，提升冷氣機的效能，例如：增加風扇的數量、增加冰塊令水的溫度降低等等。當日參加工作坊後，我向物業設施管理組的測量師請教了不少關於測量方面的知識，真感謝他們的耐心回答啊！ ”

EVENT HIGHLIGHTS 活動回顧

General Practice Division 產業測量組

Workshop: Site Visit to URA Project in Yue Man Square

實地考察市區重建局裕民坊重建項目工作坊

21/5/2022

Student Feedback 學生心聲

“ I joined the URA Project site visit to Yue Man Square. In addition to understanding more about a surveyor's work, I saw a lot of creative designs. The indoor bus station was what I found to be the most impressive. I never imagined that so many stakeholders were involved in its design and operation. During this workshop, I also realised that surveyors make arrangements and designs according to the needs of stakeholders and, thus, have to strike a balance between their competing interests. I was excited to see the Yue Man Hawker Bazaar merchants operate in a more comfortable shop environment.

我參加了裕民坊重建項目工作坊，除了解到測量師的工作，還看到很多創新的設計。印象最深刻的，便是室內巴士站，我想不到會涉及這麼多持份者，後來才了解到測量師需要因應持份者的需求而作出安排和設計。我亦有更深入了解到測量師要權衡各持份者利益的工作。很高興看到裕民市集裏友善的商家能有更舒適的營商環境。 ”

EVENT HIGHLIGHTS 活動回顧

**Building Surveying Division
建築測量組**

**Workshop: Green School
綠建學校工作坊**

28/5/2022

Student Feedback 學生心聲

“ We visited United Christian College (Kowloon East) and learned how to incorporate green elements into campus designs. For instance, one can plant climbers on rooftop fences to make the best use of the rooftop. We also discovered that environmental protection could start from using renewable building materials such as bamboo for flooring. Every design serves a purpose, as evidenced by the large, open windows in a dorm's living room, which increased its exposure to sunlight. This results in less need for artificial lighting and greater energy conservation.

我們參觀了東九龍匯基書院，了解到如何將綠色概念融入學校，例如可以將天台圍欄栽種爬牆植物，將天台一隅種滿花草草達致物盡其用。當然，我們還了解到原來環保可以從建築原料入手，例如利用可再生的竹製作地板。而且每個設計都有它的意義，就好像宿舍客廳的窗設計得比較大和開揚，這樣可以讓陽光照進來，從而少點開燈，節約能源。

”

EVENT HIGHLIGHTS 活動回顧
